## Education

Southern State Community College - Hillsboro, OH

AAS: Networking and Cybersecurity

(GPA 3.609) May 2025

## Awards

Intel Semiconductor Scholarship for Women

November 2023 - Current

This scholarship was awarded from the Intel Corporation to 25 Ohio females that are enrolled in two-year institutions and are majoring in STEM related fields.

## Work Experience

### **Ohio Code Scholar Consultant**

Southern State Community College - Hillsboro, OH

May 2023 – Current

- Visited over 12 area K-12 schools to mentor more than 400 students in STEM education.
- Guided students in designing and engineering robots, fostering hands-on learning and innovation, and achieving at least a 90% project completion rate; mentorship directly resulted in the creation of over 300 robots.
- Taught coding fundamentals using Arduino Blocks, a C++ coding program, introducing students to programming concepts through interactive projects; 100% of the students wrote their own code to personalize their unique projects.
- Provided instruction on 3D design using TinkerCad, equipping students with practical skills in digital modeling and design.

### **Computer Science Lab Assistant**

Southern State Community College - Hillsboro, OH

August 2023 – Current

- Supported computer science professors during instructional sessions, enhancing teaching effectiveness through classroom assistance.
- Mentored students in completing homework and hands-on in-class projects, promoting understanding and technical skill development; 45 out of 50 students successfully passed the class they were being assisted with, achieving a 90% success rate.
- Maintained computer systems to ensure software was up-to-date and data was stored appropriately, enabling efficient and secure usage by students.
- Ensured cleanliness and organization in lab areas, maintaining a productive and professional learning environment.

### **Phlebotomist Site Coordinator**

CompuNet Clinical Laboratories - Moraine, OH

January 2022 – July 2023

- Compiled and analyzed data for end-of-month reports, contributing to efficient record-keeping and operational oversight.
- Prepared specimens for shipping and handling, ensuring accurate labeling and compliance with regulatory standards.
- Performed specialty blood, urine, and stool specimen collections for over 60 patients daily, maintaining strict adherence to protocols.
- Coached new employees on company procedures, ensuring a smooth onboarding process.
